ALLOY INNOVATION CENTER AT NORTH CREEK

Alloy Innovation Center at North Creek is a six-building 205,000 RSF Class A research facility owned by Alloy Properties, a national life science platform formed by TPG Real Estate Partners. Located in the burgeoning Bothell WA Life Science Market, Alloy Innovation Center is home to some of the regions most exciting life science companies, including Immunome, Charles River Labs, Athira and Lundbeck. The region's Life Science and Biotechnology industry is anchored by Seattle Genetics, Bristol Myers Squibb, Adaptive Biotechnology, AGC Biologics, Nanostring, University of Washington and the Fred Hutchison Cancer Research Center.

TPG

Alloy Properties is a national life science platform formed by TPG Real Estate Partners that focuses on investing in life sciences and innovation campuses. The platform focuses on acquiring office and R&D campuses for conversion into cutting-edge environments for life science, biotech, and innovation users. Today, Alloy has national life science experience across over 4.1M SF in all major US life science markets, including Boston, San Francisco, San Diego, Raleigh-Durham, and Seattle and has successfully leased Class "A" lab space ranging from biology to biomanufacturing use and everything in between, building a robust tenant network of early-stage to multi-billion dollar life science companies.

As part of the TPG ecosystem, Alloy Properties is able to leverage the unique insights of TPG's healthcare team, which is among the largest and most experienced healthcare investment platforms globally, investing over \$21 billion in the sector to date. The Alloy team works collaboratively with TPG Healthcare to integrate tenants into a vast network of the industry's top executives and venture capital firms. In addition, the TPG ecosystem provides companies access to Alloy's Scientific Advisory Board, comprised of seasoned healthcare investors with over 60 years of combined experience growing life science companies.
