The Cross Kirkland Corridor connects Kirkland. The light industrial warehouses along the Corridor are being re-purposed for uses as varied as high tech offices, pubs and restaurants, advanced manufacturing, and indoor recreational centers. Zoning changes will allow mixed-use residential as well.

Currently, there are more than 1,800 businesses with more than 18,000 employees within 2,000 feet of the corridor. Imagine employees bicycling or walking to work, or children walking from home to school and after-school activities. Imagine your business along the Corridor.
